Opis produktu

With rubber buffer and dust filter for PSU
Unique post-modern steam-punk style appearance, very impressive
Side-window and top 4 turbo-type air out-taking holes,excellent for PC modding and gaming
Large area of rubber painting (soft touch)
Horizontal structure, perfect for top-performance or big-size air cooler installation, ensures a great cooling performance while keeps no extra vertical pressure to the motherboard (compared with tower-type ATX case)
4 magic color LED lights pre-installed on the top, amazing effect (color changing, brightness adjusting and breathing, fan speed adjusting)
2 USB 3.0 +2 USB 2.0 Ports
200mm fan (front)+120mm fan (rear) pre-installed
Compatible with Micro ATX and Mini-ITX motherboards
Support long VGA Card installation up to 320mm length
Top panel supports max 240mm water cooler installation
2 grommets on the rear are ready for building external water-cooling system
Tool free installation design for 2.5’’/3.5’’ SSD/HDD
Independent two 2.5’’ drive-bays support SSD RAID build-up
Two-layer horizontal structure, excellent for heat dissipation & compatibility
