Opis produktu

When you achieve a certain level in your development and approach a "pro" status, you start honing your skills. You become more demanding to details, more critical to the result. So you manage not just to keep the quality high but also to upgrade it manifold.

SVEN company has introduced an extension of the legendary STREAM line, SVEN STREAM R 2.0 speaker system. It has 90 W power.

Now the model is equipped with a remote control! It enables the user to adjust the balance between the left and right channels, turn up or down the volume, bass and treble, mute the sound and return to default settings, go to Standby mode and back.

Three switchable inputs make it possible to connect the system to several sound sources simultaneously. For instance, to a PC, DVD player and a smartphone or a tablet.

The unchanged contents are bi-amplification technology with linear phase response, coordination of drivers on the section frequency in the active 4th order filter, headphone jack, master volume and timbre controls.

The appearance design of SVEN STREAM R is inspired by professional speaker systems used in recording studios. The protective grille hides two drivers: a silk tweeter for the highs and mids and a powerful 5-inch paper woofer.

Taking up the currently popular idea of environmental care, SVEN engineers have equipped the models with the Standby mode feature providing significant energy saving owing to the built-in transformer switching off the main power source.

Specyfikacja produktu:
Producent Sven
Model Stream R
Output power (RMS), W   90 (2 × 45)
Frequency range, Hz   40 – 27,000
Tweeter diameter, mm   Ø 25
Woofer diameter, mm   Ø 133
Magnetic shielding   yes
Power supply   ~ 220 V / 50 Hz
Case material   wood (MDF)
Dimensions, mm   220 × 310 × 185
Weight, kg   9.1
Color black
Wersja opakowania BOX
